

Bill Prochazka, Executive Vice President and General Manager, Duncan Aviation - BTL

"It is a pleasure to run a business in Battle Creek. The community support here is second to none."

Duncan Aviation is an aircraft service provider with 2,000 employees supporting the aviation needs of government and business operators and other service providers. Services include major and minor airframe inspections and maintenance, engine services, major retrofits for cabin and cockpit systems in addition to full paint and interior services and aircraft sales and acquisitions. Complete service facilities are located in Lincoln, Neb., and Battle Creek, Mich. Additional locations include more than 20 satellite avionics facilities strategically located throughout the United States and components solutions available 24/7 at 800.562.6377 that can handle any aircraft system problem with immediate exchanges, rotables, loaners or any avionics/instrument/accessory/propeller repairs and overhauls.

Duncan enjoys a reputation of being among the top rated companies annually in the aviation industry. We are consistently rated among the best in avionics and maintenance, and are known as one of America's top places to work across all industries.
