miner@bcunlimited.org

Jack Miner has over 20 years experience in the Computer Software industry where he held sales and executive positions focusing on creating value for stakeholders. His positions have been with Venture Capital-backed start up companies and fortune 100 information technology organizations. Most recently working with Cybermation where he was responsible for a team of sales specialists focusing on an emerging distributed automated scheduling system. Cybermation was acquired by CA, Inc., but prior to its acquisition, the team was doubling revenues every 6 months. Mr. Miner is Managing Director of BC Ventures (Battle Creek Unlimited's Technology Business Acceleration team) and is focused on the infrastructure, talent and business ideas that enable world class entrepreneurs to grow.

Mr. Miner is a native of Hastings, Michigan and holds a B.A. from the University of Michigan in Economics and a Masters from Northwestern University's Kellogg Graduate School of Management.
