

TECHNICAL REQUIREMENTS

For fully produced performances, the Presenter shall provide or obtain at its expense a theatre, equipment, and crew according to the following minimum specifications. For lecture-demonstrations, children's programs, and mini-performances, the following lighting and crew requirements may be adjusted, depending on the degree of theatricality mutually agreed upon.

STAGE

- a) Proscenium or moderate thrust.
- b) Minimum size of 28' wide by 18' deep with 14' overhead clearance.
- c) Wings with legs.
- d) 5 hours load in time.
- e) Four 15 amp electrical outlets stage left. (60 amps total.)
- f) Two eight foot tables in each wing to place props and costumes on.
- g) Low wattage running lights with dark blue gels in each wing.
- h) We use a fog machine - biodegradable smoke.
- i) All central air (air conditioning, heating, fans, vents, etc.) needs to be OFF for the Passing Wind routine. (It's comes at about the 50 minute mark.)

FLOOR

- a) Surface of linoleum, vinyl or finished wood safe for barefoot dancing.
- b) Stage and wings clean and clear of obstructions.

SOUND

- a) Amplifier and speakers appropriate for venue.
- b) One microphone (hand held, wireless or corded).
- c) Two XLR inputs stage left for music.

LIGHTING

- a) House must be able to get close to complete darkness.
- b) A black (or non-UV active) back drop is required.
- c) One follow spot.
- d) Current plot and channel information is posted on www.tweaksters.com. This info changes regularly. We bring in moving instruments if driving.

PERSONNEL

- a) One follow spot operator.
- b) One lighting board operator.
- c) Two stagehands. One on the rail for black curtain/cyc and one on the floor.

DRESSING ROOM

- a) One room with 2 chairs, a table, a mirror and sufficient lighting.
- b) Nearby restroom.
- c) Plenty of non-carbonated (preferably glass) bottled water and a bag of ice.

For questions or concerns regarding the above, write regan@tweaksters.com or call 310.394.4964.
